

## Description :

The transponder key has the same figure with the tradition key but has one RFID transponder embedded in the plastic head. When a vehicle Anti-theft system combine with the Engine Control Module (ECM), the transponder key can enhance vehicle security because the vehicle will not start if a tradition key or a wrong code transponder key inserted into the ignition cylinder. This series is for Chrysler vehicle, transponder key without remote control.

## Specification :

Part Number : **Chrysler-Y160CH46-N**  
Silca REF. : Y160  
Transponder : CH46

Part Number : **Chrysler-Y160T8-N**  
Silca REF. : Y160  
Transponder : T8 (4D64)
