

Description :

The transponder key has the same figure with the tradition key but has one RFID transponder embedded in the plastic head. When a vehicle Anti-theft system combine with the Engine Control Module (ECM), the transponder key can enhance vehicle security because the vehicle will not start if a tradition key or a wrong code transponder key inserted into the ignition cylinder. This series is for Renault vehicle, transponder key without remote control.

Specification :

Part Number : **Renault-NE73T5**
Silca REF. : NE73
Transponder : T5 (cloneable)

Part Number : **Renault-NE73T8**
Silca REF. : NE73
Transponder : T8 (4D64)

Part Number : **Renault-NE73T13**
Silca REF. : NE73
Transponder : T13 (4D60)

Part Number : **Renault-NE73T14**
Silca REF. : NE73
Transponder : T14 (46)

Part Number : **Renault-NE73T5-2**
Silca REF. : NE73
Transponder : T5 (cloneable)

Part Number : **Renault-NE73T8-2**
Silca REF. : NE73
Transponder : T8 (4D64)

Part Number : **Renault-NE73T13-2**
Silca REF. : NE73
Transponder : T13 (4D60)

Part Number : **Renault-NE73T14-2**
Silca REF. : NE73
Transponder : T14 (46)
