

## Description :

The transponder key has the same figure with the tradition key but has one RFID transponder embedded in the plastic head. When a vehicle Anti-theft system combine with the Engine Control Module (ECM), the transponder key can enhance vehicle security because the vehicle will not start if a tradition key or a wrong code transponder key inserted into the ignition cylinder. This series is for Suzuki vehicle, transponder key without remote control.

## Specification :

Part Number : **Suzuki-SZ11T4**  
Silca REF. : SZ11  
Transponder : T4 (4C)

Part Number : **Suzuki-SZ11T18**  
Silca REF. : SZ11  
Transponder : T18 (4D65)

Part Number : **Suzuki-SZ17T18**  
Silca REF. : SZ17  
Transponder : T18 (4D65)

Part Number : **Suzuki-HU87T18**  
Silca REF. : HU87  
Transponder : T18 (4D65)
